

## **POST-DOCTORAL RESIDENCY PROGRAM TABLES**

**Date Program Tables are updated: December 1, 2022**

### **Program Disclosures**

As articulated in Standard I.B.2, programs may have “admission and employment policies that directly relate to affiliation or purpose” that may be faith-based or secular in nature. However, such policies and practices must be disclosed to the public. Therefore, programs are asked to respond to the following question.

Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values.	<input checked="" type="checkbox"/> <b>Yes</b>  <input type="checkbox"/> <b>No</b>
If yes, provide website link (or content from brochure) where this specific information is presented: <a href="https://bamc.tricare.mil/About-Us/SAUSHEC/Allied-Health/Behavioral-Medicine-Education-Programs/Child-Pediatric-Psychology-Fellowship">https://bamc.tricare.mil/About-Us/SAUSHEC/Allied-Health/Behavioral-Medicine-Education-Programs/Child-Pediatric-Psychology-Fellowship</a>	

### **Postdoctoral Program Admissions**

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program’s policies on resident selection and practicum and academic preparation requirements:
Civilian applicants must have completed all requirements for doctoral graduation before starting the Fellowship. Eligibility for entry into our training program is based on completion of a doctoral program in clinical or counseling psychology accredited by the American Psychological Association (APA). The applicant will be required to have completed an APA approved accredited internship program. Civilian applicants must be U.S. citizens. Military officers interested in pursuing Fellowship training must do so through the Army’s Long Term Health Education and Training (LTHET) application process.
Describe any other required minimum criteria used to screen applicants:
Civilian applicants who meet selection criteria and active duty applicants who are selected through LTHET will be offered an on-site interview at the medical center. We are not able to reimburse interview travel expenses, and virtual (phone, video) interviews will be offered to those applicants who are not able to interview in person. The fellowship faculty and staff participate in this process through reviewing applications and interviewing applicants. APPIC selection guidelines are followed for civilian applicants and LTHET guidelines are followed for active duty fellows. Generally, only one fellowship position is open each year. However, the number of open positions may vary based on funds available each year.
