Dear Soldier in Transition and Family Members,

On behalf of the Soldiers, Civilians and Contractors of the Soldier Recovery Unit (SRU) at Joint Base San Antonio (JBSA), welcome to our outstanding organization. As a new member of the team, I ensure you that you will be treated with dignity and respect throughout your time at the Soldier Recovery Unit.

You and your family have arrived at an organization where you will receive world-class healthcare through Brooke Army Medical Center (BAMC) and supporting Centers of Excellence. These facilities employ highly competent and professional staff that will ensure the care you will receive here, at your home away from home, will reflect the lines of the Warrior in Transition Creed:

"I am a Soldier in Transition. My job is to heal as I transition back to duty or continue to serve the nation as a Veteran in my community. This is not a status, but a mission. I will succeed in this mission because I am a Warrior and I am Army Strong."

The JBSA BAMC SRU Mission is to provide competent and compassionate leadership through command and control, complex case management, comprehensive transition planning and primary care. This mission will be accomplished by providing a safe environment that promotes the optimum healing for the wounded, ill, and/or injured Soldier that will return to the force or transition to civilian life as a productive Veteran.

We are honored to serve you and recognize the sacrifice by you and your Family to protect and defend our great nation, the United States of America. Welcome again to the JBSA BAMC SRU – ***One Team...One Purpose!***

Sincerely,

Gabriel I. Camacho  
CSM, USA  
Command Sergeant Major

Sheryl A. Justice
